

Donald D. Fooshee, born on July 30, 1935 in Colorado Springs, CO, passed away on June 23, 2025, after a brief battle with cancer

Don was a devoted husband and father who served on the Colorado Springs Fire Department for 28 years. Don retired from the Fire Department in 1986, after which, he worked for a short time at a fishing tackle store, which if you know Don, was right in his wheelhouse.

Don was a handyman, working on many household projects for his family and friends. He was the father of three sons, Lonnie who passed away in 2002, Rodger who passed away in 2007 and Brian.

Don loved fishing and his family and was always prepared with a good Dad joke and had a wise crack for every occasion. He will be greatly missed.
